Professional Experience

Full Stack Engineer, Calsoft Technologies

01/2022 – 10/2023

Bengaluru, India

• **Project-1:**

- Developed and maintained a website with my team for in-house purposes using JavaScript and it's frameworks.
- The implementation of the website streamlined the process of hiring for the Talent Acquisition team.
- My role was to build the Front-end part of the website using AngularJS. And then later on switched to using ReactJS while working on the website.
- Git & GitHub tools were introduced in the team's workflow to increase our work efficiency.

• **Project-2:**

- Developed and tested APIs with my team using for a client's website using Mulesoft and it's tools.
- Learnt Mule Expression Language and also learnt how to use tools such as Anypoint Studio Platform and Mulesoft Cloud to maintain them.

• **Project-3:**

- Developed and maintained an application with my team using Kotlin.
- Learnt a lot about how Coroutines in Kotlin work.

Personal Projects

Attorney Appointment Scheduling System, University Project

03/2021 – 05/2021

- Led a team on a University project to develop a website using Django.
- Learnt HTML, CSS and Python.
- Also implemented the usage of Git & GitHub to increase our work efficiency.
